NEW ALUMINIUM PROFILE REMOVES RABOTE PANEL

NEW

In this new economical aluminium rabotepanel, there is no need of gkinisia and there are numerous advantages, unknown until today, as it is even suitable clothes coat hanging. The new economical aluminium profiles removes the wooden boards and the costly task of gkinisia and can be screwed everywhere without special investment on the wall. Another advantage is the easy placement on wall, on metal or wooden frame in any length or dimension as this profile needs no preparat . In other words it is a supplement of the shop equipment.
